The Store with the Goods

Breezelets

Among the lost and found ads in Monday's Calgary Herald, appeared: "Found, a lamb."

Wonder just how many lambs "poker" has found—and sheared

"More cars go and still no trace is found," is almost a daily occurrence in Calgary now.

Kind of took a flight. Come to think of it, aeroplanes have been hovering over Calgary of late—and "more cars go."

"Bolshevism is waning in Russia," according to reports now received.

But quite a number want a taste of it in Canada.

With the mercury at from 90 to 100 in the shade, the fact that there is a coal miners' strike on, will not worry the average citizen just now.

But when zero weather comes—we'll worry some to notice how high the price has jumped.

General Montgelas says acceptance of the economic clauses would condemn German workmen to slavery.

General Montgelas might tell us what Germany's economic terms would have condemned the Allied workmen—and every one else—to if Germany had been victor.

The Calgary Herald relates that a shoe manufacturer bought a pair of his own made shoes at a retail store for which he paid \$14.00. He sold the same shoes wholesale at \$6.75

That's just where "the shoe pinches" all along the purchasing line in the high cost of living

Coleman lady teachers have gone out on strike, as a protest.

That is certainly "teaching the young ideas how to shoot"—in the wrong direction.

But then, you know, teachers are allowed to "strike"—the kiddies.

Hanna Herald: "The Allied Watch on the Rhine may have more to do than tick."

Sure, if Germany doesn't sign up—it will strike the hour of doom for the Hunns.

Mercy, Sarie, wouldn't it be awful if the dogs and cats went out on strike?

Many are already on strike—a "hunger" strike.

M. D. of Coliholme

The 3rd meeting of the above council was held in the Coliholme schoolhouse, on Saturday, May 18th.

Members present: Messrs. Falconer, Marr, Hittle, Kinch, Harrington, Falconer, Walter.

The minutes of last meeting were read.

Marr, that these minutes be adopted as read.

For—Walter, Marr, Hittle.

Against—H Kinch

Messrs Harrington and Falconer did not get to the meeting until late.

Following accounts were paid:

C Wylie, gopher poison 293.35

ORGANIZATION MEETING G.W.V.A.

A meeting of returned veterans held at the Acadia hotel, Chinook on May 17th, for the purpose of organizing a local of the Great War Veterans' Association.

On motion, a branch of the above was organized, to be known as the Chinook Local, and the chartered members thereof to be those who had signed the list and that the list be held until May 24th for further signatures.

The following officers were then duly elected:

C. W. Rideout, president

J. E. McLeod, 1st vice-pres.

S. W. Warren, 2nd "

L. E. Ormond, sec.-treas.

Messrs J. D. McLean, James

Pettigrew, executive committee.

It was decided that the initiation

fee be \$2.00 and the dues

\$4.00 per year, payable quarterly

in advance.

The regular meetings will be

first Saturday night of each

month, at eight o'clock, at the

Acadia Hotel, Chinook.

It was decided that any ex-

penditures may be made on the

authority of three or more mem-

bers of the executive.

All disbursements are to be

made by cheque, signed by the

President and Secretary-Treas.

It was decided that a copy of

the minutes of this meeting be

published in the Chinook Advance

and a copy sent to the Provincial

Secretary G.W.V.A.,

Calgary.

Adjourned.

Be sure to hear Mr. J. Frank

Fouche, the noted dramatic artist

in Arm's hall, Monday night,

June 2nd.

Chinook was well represented

at the Youngstown sports on the

23rd. The best part of the prize

money came back with the

Chinookers. Among the prizes

won be Chinook were first in the

senior baseball, first in junior

baseball, two first in girls' races,

first in women's race, first in the

50, 100 and 250 feet races for

men. A complete list will be

given next week.

On motion it was decided that

the work this year be carried on

the same as last year with regard

to cook car, bunk car, wages for

men and teams, and cost of

meals

Kinch, as an amendment

The wages for man and four

horses be 10.00 per day, man and

two horses 7.00, man 4.50,

and foreman 7.00 and board him-

self

For the amendment—Kinch

and Harrington

Against—Walter, Falconer,

action.

EDITORIAL

Farm Life in Canada

The whole world is in a state of unrest, and society is being shaken to its very foundations. Conditions are changing, and uncertainty exists in almost every walk of life. Turmoil and strife are everywhere in evidence throughout industry, our political institutions are undergoing the greatest strain yet placed upon them, in the world of finance there is doubt and anxiety, and throughout the whole social fabric there is much questioning and groping as to what is best to be done.

This discontent and unrest is, however, much more apparent in larger centres of population all over the world, in the cities and large towns, than it is in the rural communities. While there is, of course, some doubt and uncertainty as to the general effect which these disturbed world conditions may have on the profits of agriculture, there is peace and contentment on the farms of Canada in comparison to the state of feeling in the cities and towns.

Present conditions, in fact, demonstrate that no man leads a happier, more independent existence today than does the successful farmer. In urban centres the working man is filled with doubts and misgivings as to the future. He lives in constant dread that the present upheaval following the Great War will result in widespread unemployment, and that soon he will find himself and his family facing actual want. The almost universal demand for higher wages is occasioned by the fact that the city worker finds it impossible to make ends meet and bring his family up in decency and comfort with the present high cost of living. He realizes that, to a greater extent than ever before, he is not dependent on his own efforts, but is the plaything of forces he cannot control. In comparison with the farmer, the city worker is in a state.

So, too, the employer of labor, and the business and professional man in city and town, is harassed with countless worries. The large employer of labor would like to give work to all and pay the wages demanded to meet the abnormally increased cost of living, but with an uncertain financial outlook, and doubtful of the means to market and sell his products in such quantity as to warrant the employment of larger numbers of men and the payment of higher wages, he finds himself in a quandary. He, too, is not independent. On the contrary, he is absolutely dependent on world forces beyond his control, and also dependent on the goodwill and loyal co-operation of his employees.

The farmer, on the other hand, while confronted with increased costs of living and higher wages for farm help, has the assurance that there is a market for all he can produce. The world can get along for a time without manufacturing goods of many classes, but mankind cannot get along without food for even a day. The farmer is not troubled with men demanding work that they may live; his worry is rather to get sufficient help to enable him to produce all that he

would like to produce.

While no man can live unto himself alone, the farmer is more independent of his fellowmen than any other class. He is more dependent on his own efforts than others, and can regulate the operations of his business to suit his needs and circumstances better than can the city business man or city worker.

It would be foolish to attempt to minimize the difficulties with which the farmer has to contend, or to discount the problems he has to solve, but the fact remains that, admitting and recognizing these, he is still able to live a happier and more independent life than is the city toiler. He is to a far greater extent master of his own life and destiny.

And after all, to feel independent, to know that the measure of your success in life is largely in your own hands, that you are your own boss, is one of the supreme satisfactions in life. The boy or youth on the farm who sometimes feels that farm work is drudgery, that he is leading a narrow existence, and who is tempted by the lure of the city with its bright lights, its crowds, and surface gaiety, would do well to reflect that on the farm he is his own master, while in the city he would be but one of the crowd. In the city the bright lights, the laughter, the passing amusements, are all on the surface, and beneath and back of them there is much loneliness and heartache and far more monotony and drudgery than on the farm. For every success in the city of which the world hears, there are one hundred failures of which no notice is taken.

Thousands of city toilers in office, store and factory would gladly relinquish those things which constitute the lure of the city if they had the opportunity, knowledge and strength to engage in agricultural pursuits. Youth on the farm who have such opportunity, knowledge and strength should hesitate long before abandoning their substantial substance for the shadows of city life.

Sure! High Heels Cause Corns But Who Cares Now

Because of the style desired that women crowd and buckle up their tender toes in high heel footwear they suffer from corns, then they cut and trim at these painful spots which merely make the corn grow faster. This suicidal habit may cause lockjaw and women are warned to stop it.

A few drops of a drug called Freezone applied directly upon a sore corn gives quick relief and soon the entire corn, root and all, lifts out without pain. Ask the drug store man for a quarter of an ounce of Freezone, which costs very little but is sufficient to remove every hard or soft corn or callus from one's feet.

This drug is an ether compound and dries in a moment and simply shrivels up the corn without inflaming or even irritating the surrounding tissue or skin. Clip this out and pin on your wife's dresser.

Automobile Users Still Increasing. The number of automobile users in Western Canada continues to grow. In Saskatchewan approximately forty thousand licenses have been issued already this year and applications are still being received. This number far surpasses the number issued during the same period of last year, and is partly due to the new settlers who are daily taking up land in the province and to the fact that many farmers are now providing themselves with additional cars.

Wrong Again

"What is a blizzard, children?" asked the teacher.

"To me," answered the teacher. "Hurry up," laughed the teacher. At last up spoke one little man: "Please, teacher, the inside of a chicken."—London Ideas.

A gloomy temper is often brought on by a change of wallpaper.

This Year's Crop Acreage

The Largest Area in History of the World.

The Prairie Provinces of Western Canada this year will have the largest area in crop in the history of the provinces, according to reports received from the three provinces.

The greatest increase will be in the province of Alberta, where considerably over nine million acres will be planted. The wheat acreage will be 4,000,000 acres greater than last year's, when the area sown to this crop was approximately 3,900,000. There will be nearly a million acres more of oats and 100,000 acres more of barley sown. Rye is a crop that seems to be growing in popularity with the farmers of Alberta, and double the area of last year will be sown to this crop.

In Saskatchewan there will be little, if any, increase in the area sown to wheat, but there will be more acres sown to oats than was the case last year. Manitoba expects to have a record-breaking year in the production of wheat, as considerable new land that was broken last year will be put into this crop. As far as can be at present ascertained, there will also be some increase of the acreage sown to oats and barley in this province.

It is probably safe to say that the three provinces will have over 30,000,000 acres of land sown to the principal grain crops—wheat, oats, barley and flax. Last year nearly 26,700,000 acres were sown to these crops, 7,109,236 acres in Alberta, 15,728,000 acres in Saskatchewan and 3,801,000 acres in Manitoba. It will be seen, therefore, that last year's record crop acreage is about to be overtaken this year.

Saskatchewan's Wool Output

Steadily Increasing Each Year and Better Prices Prevailing.

Between 400,000 and 500,000 pounds of wool is expected to be handled for Saskatchewan farmers through the co-operative organization branch of the provincial Department of Agriculture this year. In 1918, some 340,000 pounds of wool was handled by this branch which was an increase over the quantity of the previous year. In fact, since a proper system of grading was introduced not many years ago, the wool output has steadily increased each year and farmers have obtained better prices every season. Last year, Saskatchewan farmers received an average price of 58½ cents a pound for their wool, and it is believed that similarly high prices will be maintained for some years to come. "Any year is a good year to start in the sheep business in Saskatchewan," remarked W. H. J. Tisdale, Professor of Animal Industry, at the Saskatchewan University, recently, in a remark which applies with equal force to all three provinces, notwithstanding the present high price of sheep.

Farmers report an exceptionally good crop of lambs this season. At the University Farm at Saskatoon, seven pairs of twins were found one morning last week, and another four pairs the following morning. Owing to the mild weather during the winter months and the excellent condition of the ewes, a vigorous lot of lambs are appearing throughout the three provinces.

"Black Watch" The Best Black Plug Chewing Tobacco on the Market

A concrete walk from the house to the barn will help the wife walk as much as it will the appearance of the yard.

Miller's Worm Powders are a pleasant medicine for worm-infested children, and they will take it without objection. When directions are followed it will not injure the most delicate child, as there is nothing of an injurious nature in its composition. They will speedily rid a child of worms and restore the health of the little sufferers whose vitality has become impaired by the attacks of these internal pests.

An intoxicated man may not be the centre of the universe, yet he imagines that everything revolves around him.

Ask for Minard's and take no other.

If Victory Bond coupons bore 4½ per cent. compound interest—they do change them for W.S.S.

Cafeteria Plan Sells Women's Apparel. The latest innovation is clerkless stores is the "dresseteria," now successfully handling women's ready-to-wear clothes, according to the May Popular Mechanics Magazine. Signs replace salespeople in this unique shop, so, unattended and unharassed, the customer examines the articles in which she is interested and makes her purchases. She may have help, however, so a sign informs her that an employee will be glad to assist in selection if invited to do so.

Sleep Comfort

Obedience

Pat, just returned from the trenches with his head swathed in bandages, was the centre of attraction. "How did you get wounded?" asked a proud admirer.

"Well," said Pat, "the dirty boche wuz ruzin' Ned wit' our trenches when our brave captain shouts 'Kape down, boys, and stand Pat!' O' obahce!"—Judge.

Authorities differ as to whether a poker room should be classed as an anteroom or a drawing room.

YOU CAN'T RUB RHEUMATISM OUT

It Is Rooted in the Blood and Must Be Treated Through the Blood

The pain of rheumatism is something that you cannot rub out. Every sufferer from rheumatism has been advised to rub this liniment or that on the affected part, but after all the rubbing the pain remained. Rubbing did not cure it and can't cure it.

This blood and rheumatism come together and they are prepared to treat they will go together. Rheumatism is rooted in the blood, in poor weather starts the aches and pains, but it is the condition of the blood that is at fault, and only by correcting this, and the blood is rich and red can the rheumatic poison be driven out. This is exactly what is done in the treatment of rheumatism with Dr. Williams' Pink Pills.

Acute and muscular rheumatism show improvement as the thin blood is built up, and the blood is made rich and red to its normal condition, the rheumatism is driven out and does not return as long as the blood is kept rich and red. There is no part of Canada in which some rheumatic sufferer has not been cured by Dr. Williams' Pink Pills, and they do not hesitate to express their thanks for what this medicine has done for them. As an example, Miss Annie S. Delrick, R.R. No. 2, St. Thomas, Ont., says: "Dr. Williams' Pink Pills cured me of rheumatism after a great many other remedies had failed. The pain in my arms and shoulders was so great that I could scarcely sleep. I could not raise my arms to comb my hair, and could not dress myself without help. In this condition I read of a cure of rheumatism through the use of Dr. Williams' Pink Pills and decided to try them. I got half a dozen boxes and I am thankful to say they not only cured my rheumatism, but that my general health was greatly improved. My appetite was increased and I gained in weight. Since then a number of aches have come under my observation, but I have never had them again. I feel that I have been made by this splendid medicine. As for myself, I shall always speak a good word for Dr. Williams' Pink Pills."

These Pills are sold by all medicine dealers or will be sent by mail, post paid, at \$1 a box or six boxes for \$2.50 by The Dr. Williams' Medicine Co., Brockville, Ont.

The nearest approach to a ball-bearing watch is the sign where it is occasionally kept in storage.

Piles Cured in 6 to 14 Days. Druggists refund money if PAIN OINTMENT or Prolapsing Piles. Stops itching, sleep after the first application. Price 50c.

A good way to keep the hired man is to have a plain understanding at the time he is hired.

Keep Minard's Liniment in the house.

Newshound had got to the state when burnt bacon becomes a thing that matters.

"What's this?" he growled, looking at the blackened scraps.

"Cook's burnt it," said his wife apologetically.

"Obviously," said Newshound. "Have you fired her?"

"Oh, no! I can't get another," said the wife. "Won't you be satisfied with a kiss for breakfast this morning?"

"I suppose I shall have to be," said Newshound. "Call her in."

Refugees are Starving

Igdir, Trans-Caucasia. — A systematic removal and the destruction of crops and food supplies carried out by the Turkish troops in the southern part of Russian Armenia, even after the signing of the armistice, has left the country in a state of famine. A large number of refugees who fled before the Turkish advance and took refuge in remote villages and mountains, are crowding fast in a starving condition into the larger villages and towns.

The Real Proportion

The New York World says that sixty per cent. of the people of Alberta were born in the United States. The real proportion is 184 per cent., compared with 13.6 per cent. in Saskatchewan and 3.3 per cent. in Manitoba.

HOW'S THIS?

We offer \$100.00 for any case of catarrh that cannot be cured by HALL'S CATARRH MEDICINE. HALL'S CATARRH MEDICINE is taken internally and acts through the blood on the mucous surfaces of the system.

Sold by druggists for over forty years.

Price 75c. Testimonials free. E. J. Cheney & Co., Toledo, Ohio.

Arranging for Wool Crop

Co-operative Scheme of Marketing Will Again Be Undertaken

Sheep owners of Manitoba and Saskatchewan have already been notified by the governments of the respective provinces that the co-operative scheme of marketing will again be undertaken this year. For the past few years farmers in these two provinces have sent their wool to a government centre for grading and marketing. In Alberta the wool is handled by wool growers' associations, of which there are four or five in the province. The industry has grown enormously since a proper system of grading and marketing was introduced, and it is expected that there will again be a large increase in the number of growers participating, as well as in the quantity of wool handled in all three provinces.

The suitability of Western Canada for sheep is all that could be desired, and experienced sheep breeders say they know of no country where sheep are less liable to disease.

Money in Eggs

Seventeen carloads of eggs were shipped from Regina, Saskatchewan, during the week ending May 8. Most of them went to Vancouver and other Western Coast points, but four carloads went to Montreal. The numerous shipments of eggs and butter that have been sent from Regina, Saskatoon and other Saskatchewan points recently show that the farmers of the province can produce something else besides grain, and what is more, are beginning to do so. They are finding eggs rather profitable, receiving forty-four and forty-five cents a dozen at a time when eggs are plentiful.

Open Day and Night

No water goes stagnant for want of a British ship to stir it up; no air pockets are going unpenetrated by British air service can help it. We probably shall never be in vain for some of our deplorable aircraft, carrying out our deplorable air program and some hopeful energy in its maintenance; but we cannot refrain from a note of admiration mixed with envy when we observe the rugged initiative of the British, who, despite war losses, proceed vigorously to keep their house in good order.

Useful in Camp. — Explorers, surveyors, prospectors and hunters will find Dr. Thomas' Electric Oil very useful in camp. When the feet and legs are wet and cold it is well to rub them freely with the Oil and the result will be the prevention of pains in the muscles and should a cut, or contusion, or sprain be sustained, nothing could be better as a dressing or lotion.

It is better to purchase 12 cents worth of music daily from an organ grinder than to owe for a grand piano.

The boy who "can't" grows into the man who is "cannot."

CUTICURA HEALS ECZEMA

All over baby's face. — Came in water blisters and then formed a solid scale. — Began to itch and burn so bad that his hands as he wanted to scratch. Face was badly disfigured. Trouble lasted 4 months. Begon using Cuticura Soap and Ointment. Used one cake Soap and one box Ointment when he was healed. From signed statement of Mr. Albert Ellis, Westenberg, N.S.

For every purpose of the toll Cuticura Soap, Ointment and Talcum are supreme.

Accident to British Airmen

Rome. — One of ten British airplanes which were flying from Marselles to Egypt was wrecked when the machine crashed at a distance of 100 miles from the coast. A lieutenant in the machine was killed, and four others injured, one of whom died later.

Stops Bronchitis Quickly Without Any Medicine

This Problem Solved When Catarrh-ozone Was Discovered

Thousands Have Been Cured

You are nothing but a plain, simple body, to suffer a day longer from Bronchitis. It's real easy to cure — this has been proved time and again. Relief comes at once when you breathe in the soothing vapor of Catarrh-ozone. Since its healing, piney essences strike the bronchial tubes, you realize that a powerful treatment is at work.

Irritation can't live in the throat of a person inhaling Catarrh-ozone. It is so soothing, so warming, so full of concentrated healing power that you get results at once.

Catarrh-ozone strengthens the weak throat, stops the cough, removes that hacking, irritating necessity to clear the throat, makes even the chronic sufferer realize that at last he has discovered a real cure. For coughs, colds, catarrh, and winter ills, nothing in the family could be better than the complete Catarrh-ozone. Small size 50c; trial size 25c, all dealers, or The Catarrh-ozone Co., Kingston, Ont.

GIRLS! WHITEN YOUR SKIN WITH LFMON JUICE

Make a Beauty Lotion for a Few Cents to Remove Tan, Freckles, and Sallowness

Your grocer has the lemons and any drug store or toilet counter will supply you with three ounces of orchard white for a few cents. Squeeze the juice of two fresh lemons into a bottle, then put in the orchard white and shake well. This makes a quart of the very best lemon juice whitener and complexion-beautifier known. Massage this fragrant, creamy lotion daily into the face, neck, arms and hands and just see how freckles, tan, sallowness, redness and roughness disappear and how smooth, soft and clear the skin becomes. Yes! It is harmless, and the beautiful results will surprise you.

Good-bye-ee!

An air pilot, after being pestered for a long time by two girls, consented to take them for a flight on one condition, and that was that they should not speak whilst they were in the air.

After doing a few stunts such as banking, looping the loop, and the corkscorer, one of the girls very timidly touched him on the shoulder.

"I am very sorry," she said, "after not saying not to speak, but Emily has gone."—London Ideas.

If people never changed their minds, humanity would still be in the stone age.

There's Great Satisfaction

in knowing the children's health and enjoyment are being provided for when you give them

We Now Recommend New Porcupine Imperial at 10c. per Share

Those that followed our advice and bought Porcupine Crown when it was selling around 15c and Vipond V.N.T. around 12c have made handsome profits.

Porcupine Crown sold Saturday, May 17th, up to 33 cents, and Vipond V.N.T. at 24½ cents. One hundred dollars invested in either of these stocks shows approximately 100% profit. We now strongly advise our clients to buy New Porcupine Imperial at 10c per share.

Developments on the one hundred foot level look very encouraging and we look for a big advance. Act immediately.

PLUMMER & CO., Limited, 108 Bay St., Toronto, Ont.

Wants Prompt Action For To Save Russia

Paris.—A. F. Kerensky and members of the Parisian Union for the Regeneration of Russia have issued an appeal to the democracies of the world for prompt action, with a view to helping Russia out of her present chaotic condition. It proposes the organization of a mission composed of delegates from all the powers, and including representatives of organized labor, which will go to Russia and explain to the people and the different Russian governments the democratic aims they are pursuing.

The appeal says: "It should be stated categorically that the different governments repudiate the idea of any intervention likely to infringe upon the sovereign rights of Russia."

German People Are Learning the Truth

Have Been Ignorant of Acts Committed by Armies

Paris.—The German peace delegation, through the German correspondents, seems to be trying to prepare their country for the acceptance of the treaty. A new tone is observable in the German press; for example the *Liepziger Volkszeitung* in explaining the enormous indemnity figure, says: "It must be remembered that great tracts of German territory have been rendered useless for many years. The devastated regions are twice the size of Saxony. Moreover, Germany took considerable quantities of stocks and bonds from the occupied territories. In the export warehouses stocks of manufactured goods were taken to Germany, together with the cargoes from the ships at Antwerp and the German river boats. Finally, even the kitchens and bedrooms of the inhabitants in the occupied territories were entered. There is not a place where a German non-commissioned officer armed with a requisition slip has not presented himself. The confiscated merchandise was resold in other countries with enormous profit."

"Better still, systematic devastations were operated in the leading industries on a great scale. First the warehouses were emptied, then parts of the machinery were confiscated, and even the old iron was resold. Factories, looms, foundries, machine shops all fell into the hands of the devastation commission. It was thought thus to get rid of the source for many years or during the long period which France and Belgium would need to reconstitute their industries and restore the devastated lands. Germany hoped to be able immediately after the war to offer her products to the world."

"The German people seem to have been kept in ignorance hitherto of the acts committed by the German armies. They are just beginning to learn the truth."

German Officers to Be Tried

London.—Frederick William Hohenzollern, the former German Crown Prince, will be liable to trial under the terms of the German peace treaty, it was declared by Mr. A. Bonar Law, the government leader in the house of commons. Mr. Bonar Law said that the commandants of prison camps would also be liable under the treaty's terms.

Germans Are Given A Time Extension

New York.—The Associated Press issues the following: "A period of seven days of grace has been extended to Germany by the representatives of the entente and associated governments, in which the German peace plenipotentiaries may conclude their terms of the peace treaty and formulate such replies to the various clauses as they desire."

The extension of time, which originally was to have expired at noon, Thursday, was granted at the request of the Germans, who advanced the plea that more time was required in order that they might formulate arguments of such importance and length that were the original date adhered to it would be impossible to complete them; thus the time has been set forward to Thursday, May 29.

Efforts made in Germany to ascertain even the gist of the contents of the proposed reply of Germany have been without reward. A report has it, however, that lengthy notes dealing with Alsace-Lorraine, the east Ger-

Italians Hold Back Not Disposed to Agree With Terms Offered to Austria

Paris.—The Temps anticipates that the revision of the peace treaty which is to be offered the Austrian plenipotentiaries at St. Germain will be delayed for a few days. This will be due, the newspapers say, to the fact that the Italian government appears not disposed to sanction the new Austrian-Jugo-Slovak frontier, so long as the question of the frontier between Italy and Jugo-Slavia remains undetermined.

Papal Secretary Pleads For Huns

Note Declares Peace Proposals Are Impossible

Rome.—Cardinal Gasparri, the papal secretary of state, had written in the name of the Pope an official note to Col. E. M. House, of the United States peace delegation, transmitting the arguments sent to the Pontiff by the German ships to demonstrate the absolute impossibility of their country fulfilling the peace conditions imposed by the allies.

In his note, Cardinal Gasparri explained that the Pope takes this step in favor of Germany as he would do for any country requesting his assistance, as he is only animated by humanitarian feelings. The cardinal adds that the Pope has done this the more willingly since he was also urged to undertake this initiative by a country belonging to the entente. He begs Col. House to submit the situation to President Wilson, hoping that the latter will use his power of influence with the other delegates of the various powers with a view to securing a peace which will really be lasting.

Germans Resented Week Of Mourning

Order Decried by Government Far From Being Effective

Paris.—The week of mourning in Germany decreed by the government because of the terms of the peace treaty appears to have met with little success. The German musicians in particular seem to have resented over the order as a measure which prevented them from earning their daily bread, while the Tagelieders, Kundschaft and the Berlin Tageliedblatt admit that the mourning was far from being completely effective. Reports are that nearly all the music-halls remained open, and that the same place people danced all night. One bit of smart comment comes from the Volksblatt of Halle, which says:

"It is not now, but on August 1, 1914, that general mourning ought to have been ordered in Germany."

Strong for Der Patherland

Bastard.—At a meeting at Kaiserstrassen, in the French area of occupation, more than 500 school masters and school mistresses of the Palatinat adopted a resolution asserting their attachment to Germany.

The resolution also protested against any attempt to separate the Palatinat from Germany.

The old ground that signing the document as it stands would involve the economic destruction, political dissonance and moral degradation of the country is adhered to.

President Wilson's fourteen points for peace are demanded by the statesmen as the basis of the peace desired; it being asserted that Germany accepted the terms and laid down her arms, believing that they would be carried out.

Typhus Is Raging Among Bolsheviks

In Rumania, Ukraine and Galicia Stories Told Are Grievous

Vienna.—Typhus is raging among the Bolshevik troops operating against East Rumania, and also among the troops and people of Ukraine and in East Galicia and Lemberg.

E. A. Frick, Swiss agent of the International Red Cross and a nephew of H. C. Frick, of New York, has arrived in Vienna, suffering from typhus. He spent March and April in Galicia and the Ukraine. Among 2,000 Austro-Hungarian prisoners returning home from Russia and halted by the Czechs, one-third are dying from typhus. So many have died in box cars that their comrades merely threw the bodies out, leaving them unburied along the tracks.

It is feared that the Polish army, under Gen. Haller, will contract the disease, which is prevalent in the oil fields they are occupying. The hospitals in Lemberg are filled with typhus cases.

Russia at War With Rumania

Bolshevik Troops Have Defeated the Rumanians and Occupy Two Towns

London.—Owing to Rumania's disregard of the ultimatum from the Russian Soviet government demanding an evacuation of Bessarabia, a state of war exists between Russia and Rumania according to a wireless dispatch from Moscow received here. Bolshevik troops have crossed the Dniester river in the Tiraspol district, where they have defeated the Rumanians and occupied Tschetvich and Bender, the dispatch says. Bender is on the west side of the Dniester and 38 miles from Odessa. Near this town is the village of Varnitza, where Charles XII. took refuge after the battle of Poltava in 1709.

Czech-Slovaks Return

Shipping Is Being Gathered Up to Transport Fighters

Vancouver.—The Czech-Slovaks, formerly of the Austrian army, who deserted in Russia rather than fight for their oppressors, and who later fled Siberia from the Bolsheviks, are returning to their home in Bohemia. Shipping is now being gathered up with which to transport these great fighters back by way of Vladivostok and the Mediterranean.

This was the report brought by several Czech-Slovak officers, who arrived by the Empress of Japan from Siberia. The party is taking home to Bohemia the arms and munitions captured in Russia. With exhibits included, their freight amounts to almost 30 tons. They will go by way of Winnipeg, Toronto and New York.

German Captain Suicides

Was Arrested on Charge of Common Robbery

Coblentz.—Max Kasech, formerly a captain in the German army, who was arrested several days ago by United States intelligence officers on a charge of having in his possession property stolen from France, committed suicide by stabbing.

Kasech was arrested at the request of the French military authorities, who planned to return him to France and try him on a civil court charge of common robbery. Kasech was turned over to the French authorities, and killed himself in the jail at Boppard, in which he had been placed for the night.

Lines and other property found in the officer's home in Coblentz, the authorities say, was stolen during the war from French homes in Douai.

Reds Preparing New Drive

Paris.—The Russian Bolshevik foreign minister, Tchitcherine, in a message to Bela Kun, the Hungarian communist leader, concerning the reported advance of Admiral Kolchak, head of the Omsk government, declares the situation is misunderstood. He says that Admiral Kolchak is in a less favorable position than is supposed and that the Bolsheviks are preparing a counter-offensive which they hope will be successful. This information is contained in a wireless message received here.

Bolsheviks Routed by Poles

Warsaw.—On the Lithuanian front the Bolsheviks launched strong attacks against Podbrodzic, northeast of Vilna, but were repulsed with heavy losses. Polish advance guards have reached Bolnisi. German trench mortars and artillery, it is added, have bombarded Polish positions on the front in Posen and Dombrowka. There has been sharp rifle firing on various other sections of the front.

Germans Must Share Economic Losses

Protest to Peace Terms Answered By Allied Governments

Paris.—A reply by the allied and associated governments to the German note protesting against the economic terms of the peace treaty is being calculated to cause the industrial ruin of Germany has been delivered to the German peace plenipotentiaries. The reply is under eleven heads, and answers each German contention. It declared that the allied and associated government, in framing the economic terms, "had no intention to destroy Germany's economic life."

On the contrary, the report points out that in the reconstruction of the world's affairs Germany will have her part in the progressive development, but also will share with the rest of the world in the economic losses and disadvantages inevitably resulting from the war.

The reply declares that the German note fails to take into consideration the fact that the dismemberment of Germany and the end of militarism will relieve the German people of an immense burden of taxation, and return to the ranks of useful production millions of men formerly in the army who have been entirely withdrawn from industrial or agricultural activity.

The reply also makes an emphatic rejoinder to the German complaint that the loss of the German merchant fleet will throw out of work thousands of German merchant seamen. The allies' answer is that the destruction of merchant ships, chiefly by German submarines, has had the unfortunate effect of limiting the opportunities for work of seamen throughout the world, the allied powers being the greatest sufferers. It adds that there clearly is no reason why Germany should be exempted from its share of the economic disadvantage growing out of this destruction of merchant ships.

The reply on the economic objections is regarded as one of the best documents in the exchange of notes.

Rumanians Protest Against Polish Advance

Poland Has Not Ceased Fighting in Accordance With Paderevski's Pledge

Paris.—The Ukrainian armistice commission here has lodged a vigorous protest with the Peace Conference against the Polish advance in Galicia subsequent to the Paris agreement providing that hostilities be suspended. Premier Paderevski's inability to fulfill Poland's pledge to the entente, that the armistice would be respected, is causing much embarrassment to the allies. The supreme economic council discussed the advisability of continuing assistance to states asking for supplies, but fighting on regardless of pledges.

Representatives of Ukraine and Poland appeared before the Council of Four, but no decision on the situation was reached.

Minister Of Blockade Resigns

French Leader Considers Terms of Treaty Too Generous

Paris.—Baron Denys Cochon, former minister of blockade, has resigned from the right group in the chamber of deputies, after a meeting of the group, at which it was decided to send a note to Premier Clemenceau criticizing the peace treaty.

In a letter addressed to the Temps, Baron Denys Cochon considers that the treaty is too generous and unworthy of France and her allies. If it weighs heavily upon Germany, he said, it is because Germany's crimes "were big, and that her reparations will be costly—which is justice."

Delegates Say Terms Unacceptable

Copenhagen.—The conference of German political leaders and German peace delegates at Spa agreed that the peace terms were unacceptable, according to a dispatch to a German semi-official statement, and that Germany will leave "no stone" turned in an attempt to "find a practicable basis of peace which takes into account our opponents' justifiable demands and those capable of being borne and carried out by the German people."

Flag Chewing Tobacco on the Market

Volunteer for Special Reserve Melbourne.—Returned Australian soldier above has been exempted from compulsory service in the Australian army under the Defence of the Realm act. Many of them, however, are voluntarily joining the special reserve being organized in the Commonwealth.

It is a wise man that does not repeat his own wisdom.

Liquor Prohibition Is Upheld in Commons

Prince of Wales Coming to Canada

Will Open the New Parliament Buildings at Ottawa

Ottawa.—The Prince of Wales will visit Canada in August of this year, and will open the new parliament buildings at Ottawa. Sir Thomas White stated in the house that he had received a message from His Majesty the King, through the Governor-General, as follows:

"I am very glad to tell you that with my entire approval, the Prince of Wales will visit Canada this year in August. He will open the new parliament buildings in Ottawa."

It is understood that the Prince of Wales will also open the Canadian National Exhibition at Toronto the same month.

British Aviator Undaunted

Raynham Still Intends to Attempt a Non-Stop Atlantic Flight

St. John's, Nfld.—Frederick Raynham, the British aviator whose intention to attempt the ocean flight with Harry Hawker, believed to have been lost at sea, came to grief when his Marinsyde plane was wrecked while running to the "take off," announced that he was in the race again for the first non-stop ocean air cruise. Recovered sufficiently from injuries suffered when his plane collapsed, able to leave his bed, Raynham said that the machine could be rebuilt with spare parts at hand here, provided the motor was in working condition.

While the Handley-Page and Vimy mechanics are assembling their huge machines for the Atlantic "hop," the little Marinsyde will be removed to town for repairs.

Captain C. W. F. Morgan, Raynham's navigator, will not be his partner in the new trans-Atlantic flight he is planning. Morgan's physicians told him his flying days were over, and it might take him two or three months to recover from the injuries he suffered in the wreck of the Marinsyde. Raynham has not named a substitute for him.

Wireless enquiry in all parts of the north Atlantic has brought no news of Hawker. His plane has been neither seen nor heard from since it was seen by the signal light lookout at the harbor mouth, disappearing over the ice strewn Arctic current to the east.

Salzburg Defies German-Austria

Vienna.—The German-Austrian government is being defied by an autonomous government which has been established in the province of Salzburg, western Austria. The members of the new government issued a decree forbidding residents of Vienna from residing in Salzburg and announcing their opposition to the system of exchanging food from foreign countries received in Vienna for the agricultural products of the province. The Salzburg government also is refusing to hand over to the central government in Vienna the proceeds of the income tax.

Polish Armistice Fails

Paris.—The commission appointed by the supreme council to arrange an armistice between Poland and Ukraine has been dissolved, and the next development in the situation appears to depend on what action the Poles may take.

Turkey Presents Complications

Paris.—The Turkish problem has become most acute in the peace conference. Various delegations are striving to find some solution for the dismemberment of the empire which will not provoke a religious war. The United States is being looked to by the other powers as the only nation which can become mandatory for Constantinople without the danger of precipitating another European war, but the United States delegates to the peace conference express doubt of the willingness of the United States to accept the mandate, especially under the conditions which the powers have outlined.

With the Sultan expelled from Constantinople, the United States delegates expressed the belief that it might be possible for the United States public to become reconciled to the mandate. However, the Indian

OTTAWA.—The commons deliberated the methods of the government bill validating, with modifications, the orders-in-council passed under the War Measures act relating to prohibition in Canada. The discussion took place in committee and was for the most part based upon an amendment moved by Hume Cronyn, which would have permitted the manufacture in Ontario of beer of a greater alcoholic content than two and a half per cent. for export to other provinces where its sale is permitted.

Frank criticism of bone-dry prohibition came from Dr. Blake, member for North Winnipeg, who asserted that there has been too much control of the action of the people and that "prohibition was the straw which had broken the camel's back, and precipitated unrest in the country."

At the evening sitting, Hon. N. W. Rowell spoke at some length in support of the bill, declaring that no one piece of legislation had been received with so many expressions of approval.

He asked the committee to consider what the situation in Winnipeg would be today were the bars open. Dealing with the matter of permanency, Mr. Rowell said that the government was redeeming its pledge to the people by enacting the legislation for another year. During the next year some of the provinces would express their opinions with regard to prohibition, and this would have a bearing upon the situation.

After some further discussion, Mr. Cronyn's amendment was declared lost, and the bill was reported from committee. It stands for third reading.

Canadians Did Not Fight In Siberia

Vladivostok "Dirtiest Place in Creation" and "Pigs More Common Than Dogs"

Winnipeg, Man.—Speaking of the work done by the Canadians at Vladivostok, Capt. J. King, of Toronto, in charge of 250 of the Siberian forces, said there was practically nothing in the way of actual fighting so far as the Canadian force was concerned. There was trouble now and again in the interior, chiefly because of the activities of the Bolsheviks, and Canadian detachments would be sent along with British, Japanese and other allied forces to restore order. This generally would be speedily done.

Of Vladivostok, the men had little to say of a favorable nature.

"The dirtiest place in creation," was how one man described the city. "Pigs were more common than dogs on the main streets," declared another.

Chinese Students Protest

Tokyo.—A number of the leaders of the Chinese students in Tokyo, writing their names with their own blood, have signed a resolution calling upon four thousand of the students in Tokyo to return to China to protest against the Peace Conference decision in regard to Shantung and against the alleged ambitions of Japan in China.

Polish Women Fight the Ukrainians

Paris.—The advance of the Poles against the Ukrainians in the region of Kulkoff, north of Lemberg, according to the Polish national committee here, was carried out by Polish women battalions and troops from the garrison at Lemberg.

delegation, which has appeared before the Council of Four to plead for special consideration for the feelings of the Mohammedan world, as well as other Mohammedans who have made statements, assert that the sultan must not be forced out of Constantinople, declaring that such action would greatly affect his standing in the church.

Consequently Great Britain is seeking to have the sultan remain in Constantinople as head of the Moslem faith, but with purely spiritual powers.

It is now suggested that instead of transferring the sultan to a strip of territory somewhere in Asia Minor, that he remain in Constantinople, but be allowed to exercise a degree of temporal power over some territory in Asia Minor, to be selected, thus preserving the form of the Ottoman empire.

U.F.A. CORNER

We gladly reserve this Corner for the use of the U.F.A. in the
hope that it may be of some benefit to the farmer.

This corner is set apart for U.F.A. Locals. Let us hear from
you every week, if possible

Having been a 'close observer
of the U.F.A. Corner, I have de-
cided to be a contributor as well.

After listening to the discus-
sion on Bolshevism in the school
house and reading our presi-
dent's letter to the farm women
of Chinook, I concluded that
there was sufficient data upon
which to base a few remarks.
The more correspondents we
have the better. It creates in-
terest and gives us an opportu-
nity to learn the other fellow's
opinion.

Before going any further, I
would like to state that it causes
me regret to think that there are
some who are holding themselves
aloof from the farmers' movement
here because there are too many
Socialists on the executive. The
executive consists of seven men
and of that number, I learn, only
two who are avowed Socialists.
Now, I want to state that it
doesn't matter a "whoop" to our
organization whether you believe
in private capitalism or socialism,
come along and support the
Platform of the Canadian Coun-
cil of Agriculture, endorsed by
the Grain Growers, the Non-
Partizan League, and the Great
War Veterans. Don't let two
socialists on the executive keep
you away. If you are afraid of
them our genial president will
only be too glad to furnish you
with a body guard. Our presi-
dent states in his open letter that
mere man is waking up to the
open recognition of the so called
weaker sex. This present day
recognition is not new. We have
been asleep. History records
that in ancient Rome and Greece
women were the equal of men
and even in the year 2000 B. C.
Egyptian women had the same

rights and privileges as men. It
is when special privileges and
big business in the shape of the
Liquor Traffic, Food Combines
etc. etc. get their grasp on the
world and frame up an industrial
system to suit themselves, that
women are declared to be man's
inferior and are denied the fran-
chise. However, in spite of
these influences they have been
relieved of their bondage and it
is to be hoped that the women
of our district will take action
as suggested by our president
and help to throw off the bondage
of those who deny the farmer
and the proletariat in general
their rights to social justice and
fair play. It is only a few weeks
ago where I saw in the "Star"
that the wholesale merchants as-
sociation are planning to get
control of their line of the food
supply of Canada. If they do
does this mean another trust in
the same line as the meat pack-
ers? It almost looks as if the
consumers may soon have to get
off the earth altogether. The
only way to make our economic
conditions worth while is to
change this false democracy of
ours into a true democracy. More
education and getting wised
up as to our present economic
conditions and what made them
as they are is absolutely neces-
sary. The farmers platform is
just what we want. To make it
effective we must elect men on
whom we know we can depend,
being very careful to leave out
professional politicians. This
letter has lengthened out so that
space will scarcely permit any
comments on the Bolshevism sit-
uation as presented by Mr.
Pettigrew at our last meeting
and it will be necessary to close.

MONEY TO LOAN

Osler, Hammond and Nanton,
General agents for
North of Scotland and other
Mortgage Companies
have \$30,000,000 invested in farm
loans in the West, the returns from
which they re-invest in the same way.
They have lots of money now. Their
Inspector, Mr. Sweeney, who was in
the district a few days ago, says
"They have barrels of money, and
that no good loan will be refused."
Let them renew the loan you have
on your homestead, and give you
more on your pre-emption, give
you money to prove it if you wish
Or let them give you a new loan, as
large, and probably larger, than you
can get elsewhere. The district needs
all the money we can get hold of in
this way. Pay up your indebtedness
to the bank, to the municipality, to
the school, and to others. We can
furnish the money. Loans for five
years, repayable in three years, with-
out extra charge. Interest at 8 per
cent., nothing but the interest to pay
each year.

Premier Borden To Return

Sir George Foster and Mr. Doherty intend to remain in Paris.

Paris. — In view of the fact that the principles have been settled upon which peace is to be established, Sir Robert Borden and Hon. Arthur Sifton have left Paris for London and will proceed to Canada by the first available boat.

They have been absent from Canada more than six months, far beyond the period anticipated, when Mr. Lloyd George called them to London in November last. The date at which the peace will eventually be signed is a matter of conjecture, but questions of importance awaiting consideration in Canada necessitate his return.

Sir George Foster and Mr. Doherty will remain in Paris for the present, and it is possible that if negotiations should be of a prolonged nature, they too will return to Canada before the signing of the treaty. To this end the prime minister and Mr. Sifton will doubtless return to their duties in Paris at the end of the present session.

Since the arrival of Sir Robert Borden and his colleagues six months ago, the overseas dominions have attained an entirely new status. Their position as self-governing nations within the great commonwealth has been internationally recognized, first in their admission to the peace conference, and in the decision that the treaty should be signed on behalf of His Majesty by representatives of each of the great dominions, Canada has undoubtedly led in the effort to win this position, which effort has been prolonged, insistent and continuous. It began in London before the arrival of the French and Italian premiers in December last. It has continued during the subsequent conferences both in London and at Paris. In the various commissions and conferences, Canadian ministers have taken their places as representatives of the whole empire. Latterly the status of the dominions in relation to the council of the league of nations and the governing body of the labor convention has been under consideration, and, as a result of the strong stand taken by Canadian ministers, the position has been made both satisfactory and secure. Canada has good reason to be congratulated upon the place thus accorded her, and it is well that her people should realize that this place has been won by the ability, integrity and determination of her representatives.

Rumanian Order for Canadian Firms

The executive of the Canadian Association of Garment Manufacturers, has secured confirmation from the Rumanian and Canadian governments of an order that will amount to \$1,600,000 for shirts and overalls to be shipped to the Rumanian government.

The Rumanian order is for one million garments, one half shirts, and one half overalls, of strong, serviceable kind, such as used in rural parts of Canada.

The order was apportioned among the various manufacturers.

Not Much Grain For Elevators

Edmonton.—Very little grain is coming to the Edmonton elevators from farmers in the surrounding district at the present time, and a number of firms have closed down until the new fall wheat begins to move. Elevator managers attribute this to the cause which only seems natural, the work of the farmer with spring seeding and his desire to hold his grain until he has all the seed he requires. Elevators anticipate the receipt of a little more grain from the farmers' bins after the seeding is over, but do not think there are very large quantities to be sold.

Slaughter of Spartacans

Berne.—An isolated band of Russian prisoners of war wearing Bavarian uniform and under the command of Spartacans leaders were overthrown by Württemberg troops in a wood near Graefelfing, Bavaria, according to newspaper reports. They were court-martialed and 72 men with the leaders were condemned to death and shot in a grave pit near Lothausen, it is said.

Tyrol's Stipulation

Copenhagen.—A Berlin message states that the national assembly of Tyrol has resolved to inform the entente powers that the population is willing to proclaim Tyrol's independence and separation from German-Austria if Tyrolian territory remains undivided. Should, however, southern Tyrol be assigned to Italy, northern Tyrol will follow German-Austria and adhere to Germany.

German Still in Spanish Morocco

Government Proclaimed Decision to Purge Country of Undesirable Element

Tangier, Morocco. — It is stated in the French press that information has been received from a reliable source that there are still Germans, to the number of 20, in the neighborhood of Atiza, Larache, and El Ksar. There seems to have been some controversy on this point between a certain section of the French and Spanish press, the latter having claimed that there was not a single German left in these parts owing to the action of the Spanish government, which had publicly proclaimed its decision to purge the country of this undesirable element, there having been a complete change in policy in regard to the Spanish zone during the last few months.

The French press rather sarcastically observes that this is a most interesting avowal concerning the action of Spain during the preceding period of the war, but, as a matter of fact, with very rare exceptions, the Germans who were told off by Raitor and Kalle to serve in the Spanish zone at the commencement of hostilities, and who were officers in the German army, are still at the post assigned them. Very few Germans have left Larache besides those whom for some reason, the German government had no more use, and the women and children. By yielding, apparently, to the demands of the allies, the Spanish government managed to help the enemy to obtain a safe conduct to Cadiz.

Canadian Battalion's Colors

Presented as Recognition of Part It Took in War

London. — The seventy-second Canadian infantry has been presented with colors as a recognition of the part it took in the war under the system that prevails in the Canadian forces of linking up certain battalions of the militia with famous battalions in the home forces, the seventy-second are affiliated with the Scotch Highlanders, a regiment with a great reputation for gallantry and long service. The seventy-second themselves have no mean record in the European war. They were drafted overseas in August, 1916, and before long were in the thick of it on the Somme front. Since then they have been through most of the big battles on the western front, including those of Vimy Ridge, Passchendaele, and Cambrai. As part of the fourth division they have served on the German front, and they are expected to leave about the end of June on their way back to Canada.

Canadian Credits Safe

Need Be No Anxiety Regarding Security Advanced to Rumania. According to the authorities in Paris, there need be no anxiety regarding the security of Canadian credits advanced to Rumania, if there is no further delay. Undoubtedly the people of that unfortunate country are in dire distress, but there is every chance of a quick recovery to a firm basis, providing immediate relief is afforded. There is reported to be no fear of Bolshevism within the nation, while the army is admittedly situated to deal with any threats from either Russia or Hungary.

The withdrawal of troops from the north bank of the Dniester river, is by no means a set back. The Rumanians merely threw outposts across the river in conjunction with the French occupation of Odessa. With the evacuation of Odessa, these protecting outposts were no longer necessary, so the cavalry returned across the Dniester.

Large Number of Muskets Frozen

The Pas, Man. Game Warden George Ferguson, of The Pas, has reported that a large number of muskets were frozen to death this spring, their bodies being seen as the ice breaks up in the lakes and swamps. The cause of this disaster is due to the low water. As explained by Mr. Ferguson, who the water lowers the muskets are unable to get out of their houses, the exits being frozen up and the rats themselves are frozen by the feet to the ground. He states that the loss is considerable.

The American Woman Suffrage Association

has organized a non-political committee to non-sustaining women's voters' league. But then at that there's still chance for considerable activity—Detroit Free Press.

According to the old saw, "Every dog has his day." So has every saint, for that matter.

Charity never begins at home while house cleaning is going on.

The hand that rules the dyspeptic makes the pie.

Exhibition in Athens

Canadian Manufacturers are Being Invited to Co-operate

Ottawa. — During the months of September and October, according to the weekly bulletin of the department of trade and commerce, a large industrial exhibition is to be held in Athens, Greece, by the federation of British industries, which is a corporation designed to regain trade lost during the war. Canadian manufacturers are being invited to co-operate in this exhibition. A communication to the Canadian trade commission points out the timeliness of the exhibition and the favorable opportunities it will offer to bring before Greek, Balkan and Levant merchants Canadian products and manufactures. It is believed that participation at the commencement of trade relations between the two countries will lead to permanent trade. The friendliness of the Greek government is assured, and the communication hints that there will be good justification for making the Canadian exhibition one of the most prominent. The Greeks are the chief merchants and traders throughout the eastern Mediterranean coast, Asia Minor and the Balkans, and it is calculated that there is in Greece at present an accumulation of cash to the extent of \$300,000,000 above normal, secured in war orders, and that merchants are impatient to receive machinery and raw materials to carry on national industries and international trade.

Exploring for Oil In Great Britain

If It Exists It Must Be Obtained for Home Consumption

London. — The government has decided to explore Great Britain for oil. There is apparently no reason why British battleships should not be steaming on oil fuel got from beneath the country's own soil, nor is there any reason why some of the motor cars should not be driven by petrol obtained from under the roads they run upon. In the past Great Britain has been too careless of the wealth that lies under her feet. Petrol, lamp oil, fuel oil from overseas were sold so cheaply that no one was prepared to risk money in drilling for oil in England. But the war has changed the calculation, and petroleum has become so precious that if it exists in England, it must be searched for and obtained. That it does so exist has been proved on many occasions during the last century or two. At Clowne, near Chesterfield, there was a flow of 700 to 1,000 gallons daily. Whilst a flow at Conlupt, mentioned in 1836 by Dr. Prestwich, is stated to have formerly yielded 1,000 gallons a week.

Getting Rid of Gophers

One thousand dead gophers in one day is the record from the farm of J. A. Russell, of Swift Current, with the strychnine porridge which he has laid out to catch the pests. Many farmers have taken extra precautions against the gophers this year and reports come from various school districts that the pupils are going after the government prizes for gopher tails in earnest. It may interest some readers to learn that last year, through the medium of prizes offered to school children, 864,246 gophers were destroyed. This year it is hoped that a million and a half will be accounted for by the schools, and no doubt as many more will be destroyed in other ways.

To Reclaim Land

What promises to be the largest reclamation work in the province of Saskatchewan for some time will be put in hand shortly by the department of highways in the Yellow Grass Marsh district. Tenders have already been submitted for the construction of twenty-two miles of ditch. The water will be discharged into the Souris river, and the work will involve the excavation of 250,000 cubic yards of earth. The nature of the country will permit the water to be taken care of by means of a ditch alone, no expensive flume work being necessary. This work will result in the reclamation of some 14,000 acres of land, and the contract will call for the completion of the work by December 1, 1920.

Bolshevik Scheme Fails

London.—General Denekine, commander of the anti-Bolshevik forces, has frustrated a counter-offensive of the Bolsheviks plans to bisect his army by capturing Rostov, on the Don, at the head of the Sea of Azov. The war office makes this announcement. The Bolsheviks have been compelled to move their positions to the northward.

China's Delegates Threatened

Paris. — Messages threatening violence if they sign the peace treaty have been received by the Chinese delegation from various parts of China.

Holland Farms Have Gas Plants

In some parts of Holland the farmers have taken a hint from Nature

and as a result have their own gas plants. On the drained marshy land below the sea level natural gas is plentiful, and plants have been installed to put it to practical use. The installation comprises a well, into which water from the soil filters, to a gas generator therein, this extracting the gaseous properties from the water containing a supply for the house. The gas thus obtained provides all the wants for cooking, heating and lighting in the house or any other part of the farm. After the plant is once installed, which can be done at a small expense, the cost is nothing, and the quality of the gas is said to be particularly good.

Repatriating Czechoslovaks

Three Ships On Their Way to Orient Now

Washington. — The United States has undertaken to assist the repatriation of the Czechoslovaks from Siberia to Czechoslovakia, at the request of the authorities in Prague, it was learned recently. As rapidly as ships are made available, the Czechs will be transported until all are repatriated.

Three ships are on their way to the Orient now to bring several thousand of these soldiers across the Pacific. Czechs have all been withdrawn from the fighting front in Russia and are assisting the Kolchak government at Omsk and along the line of the Siberian railway to Vladivostok.

There are at present in Siberia approximately 40,000 Czech soldiers, representing what is left of the troops who deserted from the Austrian army and who fought first against the central powers and then against the Bolsheviks.

The expense of transporting these soldiers to Czechoslovakia is borne by the Czechoslovak republic, but the United States will assist in getting them to Europe by directing the transportation from Vladivostok across the Pacific, the American continent and the Atlantic.

Preparing for Blockade

Paris.—The "supreme economic council" has decided to prepare for the case where Germany may be taken against Germany, in case her delegates refuse to sign the peace treaty. The project which has been prepared, having in view the reestablishment of a strict blockade, will be handed over to the council of four for eventual application.

The economic council has decided to maintain a strict blockade of Hungary, so long as the political situation there remains uncertain.

German Protests Made in Advance

Paris.—The conviction is growing in allied circles that most of the German protests against the peace treaty so far received, were written before the reading of the treaty and are designed as propaganda. This conviction is strengthened by the fact that the text of the treaty is not quoted and the protests have been published in Berlin before they were received in Paris.

The conference, however, is referring all protests to committees which will consider them on their merits.

Russian Reds Reinforce Troops

Vienna. — Russian Bolshevik troops have met with new defeats from the Ukrainians led by Simon Petlura. Zelensky, another peasant leader, is leading fresh revolts throughout the governments of Kiev, Tchernigov and Poltava, and the Bolsheviks have been forced to reinforce their troops in those districts.

The government of West Ukraine has sent a mission to Italy to secure the release of prisoners held there who, it is planned, will be sent to reinforce the army fighting against the Bolsheviks.

Presence of Gulls Good Omen

Swift Current, Sask. — For the first time since the spring of 1915 large flocks of fresh-water gulls were noticed in this vicinity during the past week, and their presence is a good omen. These feathered friends are new found since where there is a death of water or impending drought. During the spring of 1915 the gulls were present in thousands, particularly noticeable at Ontario Place, which was under water the greater portion of that summer.

Manitoba Has 170,253 Males

According to the Dominion registration board's statistics just made public, the total male population of Manitoba, 16 years of age and over, is 170,253. Of this number, 110,390 are British born, 29,055 are British naturalized and 30,805 are classified as alien.

Refuses to Receive Irish Delegates

Premier Lloyd George Has Taken Definite Stand

London. — It was learned in official quarters that Frank P. Walsh, Edward Dunne and Michael F. Ryan, representatives of Irish societies in the United States, who have been visiting Dublin and other cities in Ireland, will not be received by Premier Lloyd George on their return to Paris, nor will they be accorded any official or semi-official recognition. According to a Reuters' dispatch from Paris, Col. E. M. House, who had promised to endeavor to arrange an interview between the United States delegates and the British premier, has now, in view of their activities in Ireland, decided not to act as intermediary.

Polish Delegates Leave Moscow

Representative Denounced Attack Upon Vilna as Unjustified

London. — Moscow wireless messages deny that the Finnish government has sent an ultimatum to the Russian Soviet republic regarding Karelian affairs. A further Moscow message states that the Polish representative has left Moscow with his suite, Mr. Tchitcherine having denounced the Polish attack upon Vilna as unjustified and having informed him that preparations for his departure were complete.

The Moscow government will always be ready, the message adds, to resume negotiations for a cessation of hostilities between the two countries.

A Giant Electric Motor

No Other Form of Power Can Meet Every Demand

The driving of a rolling mill is one of the heaviest problems which an engineer has to solve. In itself the machinery is massive, and the work of rolling huge billets of steel stage by stage down to rails or beams involves spasms of enormous energy at frequent intervals. Moreover, the mills are usually kept running night and day, so that the driving plant must be reliable as well as powerful. For a long time it was doubted whether electric power could satisfactorily take the place of the magnificent steam engines which British engineers had evolved for rolling mill work, but experience proved that it could be made at least equally reliable while it was more economical in power and in space. Special types of motor had to be designed for rapid reversing, and special accessories to supply the big reserve of power required when the billets just enter the rolls. One of the latest and largest equipments of this kind in Great Britain is driven by an electric motor of no less than 20,000 horse power. There is no other form of power which could meet every demand from a tiny dentist's drill up to the colossal rolling mill.

World's Tallest Flagstaff

The giant flagstaff now being erected in Kew Gardens, and which arrived here as a gift from the British Columbia government in December, 1915, weighs eighteen tons and is 215 feet tall. This is probably a world's record for heaviness, though not quite so as regards tallness.

For some years ago a private U.S. trading corporation, the Keystone Regalia Company, flew a flag having an area of 4,275 square feet from the top of an Oregon pine flagstaff 219 feet high.

Thereby they claimed to have established a double record — the world's biggest flag flown from the world's tallest flagstaff.

The flag, it may be added, weighed 200 pounds, and cost \$400 to make.

Do Not Contemplate Attack

London. — Questioned in the house of commons regarding the Stockholm report that the entente powers are preparing naval and military operations against Petrograd, Andrew Bonar Law, government leader in the house of commons, said a British squadron has been at Helsingfors for a long time to meet whatever emergencies might arise, but "no definite proposal of the kind suggested is contemplated at this moment."

Sees Great Future for Hellum

Calgary, Alta. — Prof. McClellan, of Toronto University, who developed the discovery of hellum from natural gas under arrangements with the British admiralty, is in the city in confidential investigations. He believes the time is soon coming when hellum will have a great commercial value and this will mean great things for western Canada.

The trouble with the disagreeable things that people say about us is that most of them are true.

For a merciless critic commend us to the successful author.

Must Sign By Compulsion

Not Signing Means Tightening of Blockade, Hunger and Death

Berlin. — "Even if important changes are not made by the negotiations begun at Versailles, there remains no choice but to bow to compulsion and sign the treaty," says an aspect of the central committee of the Independent Socialist party in the party organ, Die Freiheit.

"Not signing," continues the appeal, "means the retention of our prisoners of war, the occupation of our raw material districts, the tightening of the blockade, unemployment, hunger and death en masse. It is the proletarian that would suffer the most terribly from the circumstances.

"Peace, as hard and as oppressive as it may be, is a necessary assumption from the possibility of rebuilding our social and economic life in the spirit of the revolutionary proletarian."

The appeal is prefaced by a denunciation of the severity of the peace terms. It concludes with a demand that the workmen of all countries unite against capitalism for a world revolution.

The Home Town

You Have a Responsibility Concerning It

The interests of town and country are so interwoven that only the "get-together" spirit that results in concerted action can promote the progress that brings good to all.

Don't forget this principle in forming your attitude toward your home town.

That home town may not be all that you would like it to be. But don't turn against it at that account. Remember, it is "your" home town—a vital part of your community. You can't afford to have it decline, any more than you can afford to have part of your community remain unsanitary. Its neatness increases the price of your land, and decreases the cost of getting your produce to market. It gives you easy access to the service of doctors, dentists, druggists and merchant. It provides a convenient meeting place where you can exchange ideas and get the best of a healthier point of view that social contact with your fellow men develops. It is logically your community. In practically every way your home town holds present or possible good for you.

Because it is your home town, and because its welfare means so much to you, you have a responsibility concerning it. You owe it your support—your co-operation with the town's business men. Sincere, earnest co-operation between the town and country people of any community will free that community from all of the handicaps to a healthy, prosperous growth.—Exchange.

Soviets Craving Petrograd

Helsingfors.—The Russian Soviet government, according to reports received here, has advised the population of Petrograd to leave without delay. All government departments will depart from Petrograd July 1. It is believed that connection between Petrograd and Soviet Russia will then be interrupted and the Neva River district left unprotected. Recent reports from Finnish sources have been that the Finns were preparing to march on Petrograd, where, it was said, the Bolsheviks were having difficulties in maintaining order.

Britain Is Urging Pooling of Ships

Paris. — Renewed efforts are being made by the British delegation to secure an agreement calling for the pooling of former German merchant vessels and their distribution on a basis of tonnage loss during the war instead of the plan of the United States retaining all ships interned prior to that country entering the war.

Poland is laying claim to some of the warships surrendered by Germany. She presented her claims to the council of foreign ministers.

Death Roll of French Air Force

Paris. — The casualties in the French air service in the war zone during the war were 6,328. It was officially announced. The casualties were divided as follows: Killed, 1,945; wounded, 2,922; missing, 1,461.

Of the missing it is stated 700 must be considered to have lost their lives. Outside the war zone, the casualties totalled 1,227, bringing the aggregate for the whole air service to 7,555.

Some men are like silver plated knives. They look bright, but are usually dull.

Whatever a man reaps some one must have planted.

Sour Stomach Made Sweet

Gas Belching, Bad Breath, and Digestive Troubles Helped Quickest by Dr. Hamilton's Pills

Better patch up the weak spots. Give to the stomach the assistance it requires—or in other words, try Dr. Hamilton's Pills, which cure more weak stomachs than any other medicine.

Dr. Hamilton's Pills put the kind of life into a weak stomach that enables it to digest and assimilate all kinds of food. It's the people who feel half-sick—sort of tired and depressed—for those who have any ailment of the stomach, kidneys, or liver, that Dr. Hamilton's Pills are sure to benefit at once. Try them, 25¢ a box at all dealers, and insist on having only Dr. Hamilton's Pills. In yellow boxes only.

THE COW PUNCHER

BY
ROBERT J. C. STEAD

Copyrighted. Printed by special arrangement with Thos. Allen, Toronto.

(Continued)

"He's strong," she said. "But he's rude." "The best fields for muscle are often poor schools for manners," he answered. "But manners are no substitute for hospitality, and he seems to have that all right. It is something that belongs to the open country, the big, open country. In cities they entertain, but in the ranching country they, why, there isn't any word for it, but you will see for yourself."

He was soon back with a wagon and a stretcher. He avoided the eyes of his guests, but quickly and gently enough he placed the injured man on the stretcher. "I guess you'll have to take the rest," he said. The words were for the girl, although he did not look at her. "I could hustle him myself, but it might hurt 'im." "Let the injured man interrupted. "I beg your pardon," he said, "that I did not introduce my daughter. I am Doctor Hardy—this is my daughter, Irene, Mr. Elden."

"They don't call me mister," said the boy. "Misters is scarce in these woods. My name is Elden—Dave Elden."

He was for dropping it at that, but the girl came up with extended hand. He took it shyly, but it made him curiously bold. "I'm glad to meet you, Mr. Elden," she said.

"I'm glad to meet you, too," he answered. "Misters is scarier than misters in this neck of the woods." Carefully they lifted the injured man into the wagon, and Dave drove to the ranch building with an unvoiced caution that must have caused strange misgivings in the hearts of his team.

"It ain't much of a place," he said, as they pulled up at the door. "I guess you can see that for yourself," he added, with a grin. "You see, there's just Dad and me, and he's souse most of the time, and I handle a hasso better'n a scrubbin' brush." He was already losing his shyness. "Now, you take the feet again. Steady, don't break any more bones. Look out for that barrel hoop. This way, now."

He led into the old ranch house, kicking the door wider open with his heel as he passed. A musty smell fell on the senses of the girl as she entered, and she was conscious of the buzzing of innumerable flies. A partition from east to west divided the house, and another partition from north to south divided the northern half. In the northeast room they set the stretcher on the floor.

"Now," said the boy, "I'm goin' for the doctor. It's forty miles to town, and it'll likely be mornin' before I'm back, but I'll sure burn the trail. You'll have to make the best of it," he said, looking at the girl. "There's grub in the house, and you won't starve—that is, if you can cook." (This was evidently for Irene. There was a note in it that suggested the girl might have her limitations.) "Dig in to anything in sight. And I hope your father's leg won't hurt very much." Irene wondered afterwards why the hope com-

cerning her father should have been expressed to her. Did he already feel—that was it?—better acquainted with her?

"Oh, I'll stand it," said Doctor Hardy, with some cheerfulness. "We medical men become accustomed to suffering—in other words, You are very kind. My daughter may remain in this room, I suppose. There is no one else."

"No one but the old man," he answered. "He's asleep in the next room, safe till mornin'. I'll be back by that time. That's my bed," indicating a corner. "Make yourselves at home." He bowed through the door and they heard his spurs clanking across the hard earth.

The girl's first thought was to assure as much comfort for her father as the circumstances would permit. She removed his boot and stocking, and, under his direction, slid the leg of his trousers above the injury. It was bleeding a little. In the large room of the house she found a pail with water, and she bathed the wound, wiping it with her handkerchief, and mingling a tear or two with the warm blood that dripped from it.

"You're good stuff," her father said, pressing the fingers of her unoccupied hand. "Now, if you could find a clean cloth to bandage it with." She looked about the place, some-what hopelessly. Her expedition to the main part of the house, when she had found the water pail, had not reassured her as to the housekeeping of the Eldens. Her father read her perplexity.

"It seems as though you would be charged here for awhile, Rennie," he said, "so you will save time by getting acquainted at once with your equipment. Look the house over and see what you have to work with."

"Well, I can commence here," she answered. "This is Dave's room. I suppose I should say Mr. Elden's, but—that was it, he said about 'mistering'—? It would be splendid if it were cleaned up," she continued, with kindling enthusiasm. "These bare logs, bare floors, bare rafters—we've got back to essentials, anyway. And that's his bed." She surveyed a framework of spruce poles, on which lay an old straw mattress and some very grey blankets. "I suppose he is very tired when he goes to bed," she said, doubtfully, as though that could be the only explanation of deep amid such surroundings. "And the walls give one a clue to the artistic side of his nature." A poster advertising a summer fair, with a prodigious bull carrying the centre of the picture, hung on one wall, and across from it a photograph of a young woman, with very bright clothing and very alabaster skin and very white teeth, looking down upon me in the window. That's a good idea, blaming one's negligence on a spell. I must remember that. But the bandage? Dear, no; the only cloth I see is the kitchen towel, and I can't recommend it. But what a goose I am! Our grips are in the car, or under it, or somewhere. I'll be back in a jiffy." And she was off at a sharp trot down the trail along which she had so recently come in Dave Elden's wagon.

(To be Continued.)

"Black Watch" The Best Black Plug Chewing Tobacco on the Market

High Butter Standard Maintained

Getting Farmers to Send the Very Best Cream to the Creameries. That the educational campaign carried on by the governments of the Prairie Provinces in connection with the dairy industry is proving fruitful is shown by the large proportion of first and special grade butter that is being produced and the ever-increasing demand upon the creameries to supply outside points. Consignments are now being made regularly East and West, to the Pacific and Atlantic coasts as well as overseas and to some of the large cities in the United States.

The high standard of qualities originally adopted is being surpassed. Now all three provinces recognize a standard superior to the first. This is called "special," and it is as near as possible to an ideal quality. Of the butter graded in Saskatchewan last year, seventy-five per cent graded "first," while an additional fifteen per cent was in the "special" class. The educational plan consists in getting the farmers to send the very best cream to the creameries, and in showing them ways and means by which this end can be accomplished.

To the dairy farmer the natural advantages of many parts of Western Canada are not surpassed anywhere, and the educational work of the provincial government is showing dairy farmers how to make best use of these advantages.

Why isn't a fireman a hose supporter?

Handling Hogs Profitably

How Rancher Prepares Hogs Economically for Market

In connection with the record price of \$33 a hundred pounds recently paid on the Calgary market for hogs, it will be interesting to learn how one well-known Alberta farmer and rancher economically prepares big hogs for market.

The farmer referred to is George Lane, the well-known Alberta horse breeder. He is besides an extensive wheat grower and cattle rancher, and also raises a large number of hogs every year. The breed he prefers is the Berkshire, and he tries to keep as closely as possible to this breed and type.

Only one litter a year is raised from each sow. These litters are farrowed in the months of March, April and May and both sows and litters run on pasture during the summer months. Oats, barley and rye furnish the summer pasture. Some grain is given in addition. Cubs are born so that the young pigs can have access to the small self-feeders where oat chow is provided, but the sows are kept away. After weaning the pigs are given a stronger grain ration by the addition of barley, and as they near the finishing period the ration is almost entirely barley.

During the finishing period the pigs are divided into carload lots according to weight and condition, and fed from self-feeders. All the clean water they can drink is supplied to them in troughs, and they rapidly reach the desired market weight by taking all the grain they can eat. The plan represents a thoroughly practical plan of hog raising under the carlot system. By these methods hogs are raised at a minimum expense for labor, buildings and equipment.

These hogs are usually sold direct to one of the packing companies at Calgary. They are ready for market at regular intervals, and consequently must be marketed very largely irrespective of market conditions; but by having some ready at all seasons of the year, the chances are that a fair price will be obtained throughout the year.

Letter Proves Guilt of Kaiser

Said "Children and Old People Must Be Butchered"

"The plea that the ex-kaiser was not personally responsible for the atrocities committed by the German armies during the war is belied by a letter found by Professors Larnaud and de la Pradelle, two eminent French authorities on international law attached to the peace conference. The letter, which was written in the early days of the war by the kaiser himself to the aged Francis Joseph, Emperor of Austria, is as follows: 'My heart breaks, but everything must be put to the fire and sword. Men, women, children, and old people must be butchered. Neither tree nor house must be left standing. With these processes a terror which alone is sufficient to impress people as degenerate as the French, the war will be over in two months, whereas if I should show a humanitarian spirit it might go on for years. Despite all my repugnance I have therefore chosen the former system.' In the face of such a confession of guilt there should be no more quibbles over the legal status of the ex-kaiser, William Hohenzollern, having ordered that 'men, women, children and old people must be butchered,' should be seized at once by the allies so as to make it certain that he can never again be the 'disturber of the tranquillity of the world.'" — Toronto Globe.

Farmers Buying More Land

The Winnipeg Telegram reports a keen demand for more land among the farmers of Manitoba. "Now that the labor situation is less acute," says this paper, "they are purchasing more land in order to grow as much grain as possible while the prices are at the present high level. This demand for land has increased its value. Farm lands are now selling at 25 per cent. higher than at this period last year."

Industrial Activity in Manitoba

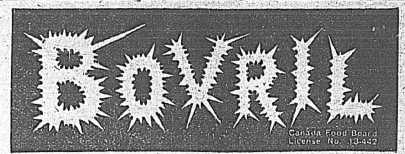

Several large manufacturing concerns have been incorporated in Manitoba during the past week. A mining company with a capital stock of \$2,500,000 and a pulp mill capitalized at \$200,000, along with many other large plants will begin operations in the province this summer.

No Need for Cards

Ottawa.—There is no further need for carrying the registration cards which were issued at the time of the last country-wide registration.

It is an easy matter to bear the aches of another's corns.

The foghorn is one of the basest things on earth.

Improving Terminal Grain Facilities

First Hospital Elevator for Head of Great Lakes

The Hospital Elevator just completed for the Saskatchewan Elevator Company at Port Arthur received its first load of grain a few days ago. This latest addition to the terminal plant of the company, which is a farmer's organization, was erected at a cost of \$600,000, and will add greatly to the facilities for the rapid handling of grain in large volume. This is the first elevator of its-kind at the head of the Great Lakes, although most of the public terminal elevators, in addition to the facilities with which they are provided for doing the regular storage business, are equipped also with cleaning and drying machinery whereby they undertake that treatment of off-grade grain, the proper work of the hospital elevator. At seasons when speed in handling grain is most desirable, however, the public terminal elevators are at some disadvantage in handling the work which properly belongs to hospital elevators. This condition is due to delays which are unavoidable when handling grain requiring special treatment, and to the loss of storage space which results inevitably from the call to bin many separate lots of off-grade grains.

The latest addition to the modern plant of the Saskatchewan Co-operative Elevator Co. has been built with a large number of small bins in the workhouse, ranging from 2,000 to 7,500 bushels capacity. The provision of these numerous small bins will make it possible to handle individual car lots separately until they have been cleaned or otherwise treated, and with the special cleaning and separating machinery which is now being installed in this elevator, separations of mixtures and other special treatment of off-grade grains can be accomplished whenever it is found that this would be profitable to the shipper. At the same time the hospital plant, specially designed for this class of work, will relieve the large public terminal elevator of demands upon its space which have, at times in the past, inevitably reduced its maximum handling capacity.

The hospital elevator has also been designed with due regard for possible future development in methods of handling grain. Provision for the establishment of sample markets has al-

Electric Ships and British Pioneers

Great Britain Has Credit of Initiating Revolution

As the "New Mexico" is the first large battleship fitted on this system, it is generally assumed that the application of electricity to the driving of ships is an American invention. The pioneer work was, however, done by British engineers, notably Captain Durnall and the late Mr. Mavor, and the first patents for this system were taken out by them. It is to the credit of the American naval authorities that they were the first to try the system. They built a large cruiser with electric drive and tested it along with a sister ship fitted in the ordinary way. As a result of these tests, plans were made for much more ambitious equipment on the dreadnought "New Mexico." Great Britain has, however, to her credit not only the initiation of this revolution, but also the building of an early electrically propelled merchant vessel, the "Wansley Castle."

Record Price for Creamery Butter

A record price for Saskatchewan creamery butter in carload lots was offered on the Regina market a few days ago, when sixty-three cents a pound was bid. The significance of market conditions is realized, then it is stated that the local wholesale price in small quantities is about the same as the above, with the cost of wrapping and cartons at two cents a pound.

SAT UP IN BED TO GET HER BREATH

Palpitation of the heart, shortness of breath, inability to lie on the left side, feelings as if smothering, oppressed feeling in the chest, dizzy and faint spells, tired, weak, worn out feeling, involuntary twitching of the muscles, sleeplessness, restlessness, all point to the fact that either the heart or nerves, or both, are not what they should be. Any of these conditions should be remedied immediately so as to avoid a complete breakdown of the whole system.

Milburn's Heart and Nerve Pills will bring energy to the weakened constitution, strengthen and regulate the heart, and tone up the tired, overstrained nerves.

Mrs. William Steeves, Chemical Analyst, N.B., writes: "I have been a great sufferer from nerve troubles and palpitation of the heart, which was so bad I had to lie straight up in bed to get my breath. I could not lie on my left side at all. I tried doctor after doctor, but got no help from them. My mother insisted on the trying Milburn's Heart and Nerve Pills. By the time I had used one box, I was feeling very much better. I took in all three boxes, and now I am in perfect health and can enjoy a good sound sleep, and can lie on my left side without any trouble."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Clocks Call the Time

Clocks without hands or faces are now common in Switzerland. The timepiece stands in the hall, and when a button is pressed by means of phonographic arrangements it calls out "Half-past five" or "Five minutes to nine," as the case may be.

It's a pity a man can't dispose of his experience at cost.

Beer Drinking

Beer Drinkers Appear to Succumb Very Readily to Disease

There seems to be a large number who do not know that the beer drinker seldom lives to be much over 60 years of age.

Beer drinkers drop off with what should have been mild and easily curable diseases. Even moderate beer-drinkers have a poorer chance of recovery, especially from blood poisoning and pneumonia, than the total abstainer. The first organs to be attacked are the kidneys, and then comes Bright's disease and dropsy, certain to be fatal.

Over thirty years ago a number of medical men began advising their patients that they had better leave beer alone and drink whiskey instead, and there are few reputable physicians who would not give the same advice today.

A few years ago Mr. J. H. Adams, on behalf of the Baltimore Sun, investigated the working of prohibition in some of the Southern States, and he concluded that whiskey produces more violence than beer, but that beer decreases, much more than whiskey, the aggregate prosperity, happiness and efficiency of the community. He said "the beer trade, ten times more than the whiskey trade, produces the evils belonging to the sale of liquor as an institution."

The brewers are going to make a desperate effort to compel us to return to the old drum-making bar room. The friends of temperance must see that their names are on the voters' list and vote "no" to every one of the questions. Don't miss one or it will spoil your ballot.

Possibilities in Bee-Keeping

Excellent Opportunity for the Industry in Western Canada

Bee-keeping is one of the farm industries in which there are great possibilities in Western Canada.

"We have," says a writer in the *Nor-West Farmer*, "everything needed except the bees and the bee-keepers—a climate that is well adapted to the industry, plenty of honey-bearing plants, and the best market in America for the product. But we are paying forty cents a pound for honey shipped in from Ontario and Ohio, and are letting our own raw material go to waste. Honey these days is about the most expensive luxury that goes on to the consumer's table, but he buys the imported product, nevertheless, and pays freight, customs duty and substantial profits to several handlers. Only a very small percentage of the honey used in these provinces is produced at home. Bee-keeping is an industry we could very well develop."

"Certainly there will always be an unequalled market in these provinces for all the honey that can be produced. There is no question about that. To give some idea of the returns from bee-keeping it may be stated that in 1918 in Manitoba 14,736 colonies of bees produced 94,000 pounds of honey, an average of 64 pounds per colony. Demand for bees from beginners is larger than usual this spring. Swarms are selling at about \$15 each."

The Town That Was Born Lucky

Western Canada Irrigation Convention to Be Held at Medicine Hat

It was Rudyard Kipling who described Medicine Hat, Alberta, as "the town that was born lucky." And possessing as it does within its limits innumerable supplies of natural gas, available for heating and power, its inhabitants have a great advantage over people in most other cities. Medicine Hat is already the home of some of the largest industries in Western Canada, including flour mills, iron foundries, clay products plant, rolling mills and several other manufacturing plants. But in addition to this it is one of the most beautiful cities in Western Canada.

The Western Canada Irrigation Association has chosen Medicine Hat for its convention this year, to be held during the first three days of the week beginning August 4th. It may at first seem strange that a city, primarily associated with manufacturing, should be selected as a convention point by an organization whose work is so closely related to agriculture. Medicine Hat is greatly interested in irrigation and agriculture, however, being one of the triangle of cities or bordering on the irrigated area of Southern Alberta.

The man who lives for himself alone has not much to live for.

A diplomat is a man who can successfully make a business engagement that takes him out of town for house-cleaning week, and at the same time keeps on speaking terms with his wife.

Turks Fight Greeks

Constantinople.—In the fighting which took place after the landing of Greek troops at Smyrna, 300 Turks and 100 Greeks were killed.

The fighting took place for the most part in the Turkish quarter of the town, where the Greeks were met by heavy rifle fire.

Paris.—A political crisis has arisen in Constantinople, due to the debarkation of Greek and allied forces at Smyrna, the *Journal* says. The Turkish Grand Vizier or prime minister is said to have resigned.

By Keeping the Liver Right

The Health of the Vital Organs Is Maintained and Serious Disease Is Avoided

Brandon, Man. — The secret of health lies in the liver. It is the liver, kidneys and bowels in healthy working order. The liver is usually first to get out of order, and there comes headache, indigestion, dizzy spells and biliousness to make life miserable.

At Mr. Cook tells how they have learned to avoid such derangements by the timely use of Dr. Chase's Kidney-Liver Pills. As she says in her letter, they could scarcely keep house without them.

Mrs. G. L. Cook, 248-10th street, Brandon, Man., writes: "I have been using Dr. Chase's Kidney-Liver Pills for the last four years for liver trouble, and can say I have had great satisfaction and help from using them. I find I don't need any doctor if I use them. I just think they are the thing for me, and my husband uses them for his kidneys and thinks them a great help. He also uses Dr. Chase's Ointment and finds no equal to it for piles. I just sent last week and got four boxes of Pills and one box of Ointment. My daughter in Winnipeg has used the Pills and found they helped her a great deal. We say we can't keep house without them and that I have cleared the doctors here out of a good many visits they had here before I began using your Pills, and I can truthfully say I think Dr. Chase's Medicines are just the thing."

Dr. Chase's Kidney-Liver Pills, one pill a dose, 25 cents a box, at all dealers, or Edmundson, Bates & Co., Limited, Toronto.

Insist on seeing the portrait, and signature of A. W. Chase, M.D., on the box you buy. This is your protection against imitations.

Rantzau Is Cheerful

Returned to Versailles With Financial Experts

Not alone has Count Brockdorff-Rantzau, the chief German peace plenipotentiary, returned to Versailles from Spä, where he went for a conference, but he brought back with him Herr Landsberg and Herr Giesberts, two of the main members of the German delegation who had been in Berlin going over the situation with the authorities, and also a large retinue of naval, military and financial experts.

Thus, the indications are that the Germans intend to continue their efforts to come into agreement with the allied and associated representatives on peace terms, that will be satisfactory to the German government and people.

It is a wise contrivance of nature that prevents a man's slumbers from being disturbed by his own snore.

Bank Clearings Increasing

Indicate Healthy Business Conditions in Prairie Provinces

In the bank clearing returns for April of Western Canada cities are signs of greater business activity, which will no doubt be more accentuated during the next few months. Compared with April last year, the increase at Calgary was over-half a million dollars—\$6,594,744, as against \$6,081,990 a year ago.

At Edmonton, Alberta, there was a jump from \$14,761,201 to \$16,826,257, a gain of more than two million dollars. Such increases are typical of the returns at the other cities throughout the three provinces, and not being confined to one or two places, are indicative of the healthy business conditions generally prevailing.

It is a wise man that does not repeat his own wisdom.

If a man is right he doesn't have to get mad about it.

No Case is Too Old, None Too Severe

Mrs. Riches Proves Once Again That Dodd's Kidney Pills Cure

She suffered for seventeen years from kidney trouble and now a Well Woman Says, "Dodd's Kidney Pills Cured Me."

St. Denis, Riviere, Richelieu, Quebec, May 26th.—(Special).—One of the most remarkable cures in the long record made by Dodd's Kidney Pills is that of Mde. Alf. Riches, well known and highly respected here. For seventeen years Mrs. Riches was a sufferer from kidney disease in its worst forms. Today she is a well woman. And she says with an earnestness born of conviction, "Dodd's Kidney Pills cured me."

"I suffered for seventeen long years," Mrs. Riches goes on to say, "from backache, headache and sleeplessness my troubles grew to rheumatism and diabetes. I tried the doctor and other medicines but I got no lasting good till I tried Dodd's Kidney Pills. I took 12 boxes of them in all and they cured me."

"Dodd's Kidney Pills are purely and simply a kidney remedy. But no case of kidney trouble is too severe or too long standing to resist them. If you haven't used Dodd's Kidney Pills, ask your neighbors about them."

Every bank teller in Canada will give you W.S.S. for your Victory Bond interest coupons. Re-invest them.

Recognized as the leading specific for the destruction of worms, Mother Graves' Worm Expeller has proved a boon to suffering children everywhere. It seldom fails.

Reason for His Courtesy

"Hey, there," said a motorist blocked by a load of hay, "I say there, pull up and let me by. You seemed in a hurry to let that other fellow's carriage get past."

"That's 'cos his horse was catin' my hay," returned the farmer. "There ain't no danger of yew cuttin' it, I reckon."—Judge.

Had ship's anchor fall on my knee and leg, and knee swelled up and for six days I could not move it or get into bed. I then started to use MINARD'S LINIMENT and two bottles cured me.

PROSPER FERGUSON.

Italian Dispute Still Unsettled

Paris.—Conferences during the past two days on the Italian issue have not succeeded in reaching an accord, as was expected. The Italians made a number of concessions, including recognition of Fiume as a free city, and the giving up of considerable portions of Istria, including the important quayside district.

The Italians, however, are unwilling to yield Zara, or Semionico, on the Dalmatian coast. The Jugo-Slavs are not disposed to accept the Italian concessions as sufficient, and there are prospects of a further extended period of negotiations.

CHILDREN NEED HELP

Spanking doesn't cure bed-wetting—the trouble is due to weakness of the internal organs. My successful home treatment will be found helpful. Send no money, but write me today. My treatment is equally successful for adults, troubled with urinary difficulties. MRS. M. SUMMERS, Box 42 Windsor, Ont.

Terms Not Harsh

London, England.—On his arrival in London from America, Earl Reading stated, in the course of an interview, that he did not consider the peace terms unnecessarily harsh. Regarding the German contention that the treaty went beyond the 14 points of President Wilson, Earl Reading said: "President Wilson's acceptance of the treaty provided the best answer, for, being the author of them, he was the best interpreter."

WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little ones she would not be without them. The Tablets are a perfect home remedy. They regulate the bowels and stomach; drive out constipation and indigestion; break up colds and simple fever; make baby healthy and happy. Concerning them Mrs. Noble A. Pye, Esq., Secum, N.S., writes:—I have found Baby's Own Tablets a great benefit for my children, and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Pierce's Medical Co., Brockville, Ont.

Taking a walk on an empty stomach is said to cure indigestion—but you should be careful whose stomach you walk on.

Asthma Can Be Cured.—Its suffering is as needless as it is terrible to endure. After its many years of relief, the most stubborn cases no longer suffer from the perfect effectiveness of Dr. J. D. Kellogg's Asthma Remedy. Comfort of body and peace of mind return with its use and nights of sound sleep come back after good use. Ask your druggist; he can supply you.

Boy Breeders of Baby Beef

Young Farmers Greatly Encouraged By Prices Received

Encouragement in a tangible form to the young farmers of baby beef in Manitoba was given at Brandon recently, when about 60 calves which had been cared for by boys of the province were sold in record time at prices ranging from twenty to forty-one cents a pound. Buyers from the leading packing houses are said to have snatched the young calves up like hotcakes. The prices the boys received are a great encouragement to this rising generation of farmers, though many found it hard to part with their pets. But their work will have an important bearing on the livestock industry of the future, and their reward should encourage them to come back stronger every year.

Too Deep for Him

An Irish sailor, after pulling in fifty fathoms of line, muttered to himself: "Sure, it's as long as today and tomorrow! It's a good week's work for five men. More of it yet? The sailor's mighty deep, is it? Then he suddenly stopped short; and, looking up to the officer on watch, he exclaimed: "Bad luck to me, sorr, I don't believe somebody's cut off the other end of this line!"

Only the uninformed endure the agony of corns. The knowing ones apply Holloway's Corn Cure and get relief.

Big Enterprise To Be Launched

For Further Development of British Columbia Lumber Industry

What is undoubtedly one of the most gigantic lumber enterprises ever conceived, and a scheme which is fraught with tremendous possibilities in the development of the British Columbia lumber industry is about to be launched by a strong syndicate, says a dispatch from Victoria. This syndicate is said to be headed by a well-known New York financier, and its operations will be conducted on a colossal and world-wide scale.

The dispatch goes on to say that the syndicate by British interests to deliver 30,000,000 feet of lumber, which, in the event of a satisfactory agreement being reached on purchase prices with the saw mills and lumber manufacturers, will be supplied by British Columbia mills; and in addition to this huge contract, further contracts are pending from European interests for an unlimited quantity of lumber that will run into billions of feet and will keep the mills of the province operating day and night at full capacity.

Minard's Liniment used by Physicians

Set a Record

Two friends met in the Strand the morning after an airplane raid. "Any damage done your way?" the first asked.

"Damage? Rather!" answered the other. "Father and mother were blown clean out of the window. The neighbors say it's the first time they've been seen to leave the house together in seventeen years."

New Taxes in Jamaica

Kingston, Jamaica.—To meet a deficit of \$700,000, the legislative council has imposed a tax of 25 cents on each parcel unloaded here from steamers. Commercial travellers will also be subject to a tax.

Pills for Nervous Troubles.—The stomach is the centre of the nervous system, and when the stomach is diseased, the result is manifest in disturbances of the nerves. If allowed to persist, nervous debility, a dangerous ailment, may ensue. The first consideration is to restore the stomach to proper action, and there is no readier remedy for this than Paro's Vegetable Pills. Thousands can attest the virtue of these pills, in curing nervous disorders.

It is said that several of the best penmen at the stockyards are unable to write.

"Completely Discouraged"

Is the feeling and plight of women who are "run-down" so low that work drags, head aches, back aches, nervous feelings, pale and weak, little things annoy and "everything goes wrong."

What it has done for others it can do for you. A helping hand to the weak, tired, over-worked women—that's what Dr. Pierce's Favorite Prescription has done for more than a million women in the last fifty years.

What it has done for others it can do for you. A helping hand to the weak, tired, over-worked women—that's what Dr. Pierce's Favorite Prescription has done for more than a million women in the last fifty years.

It is a medicine that's made especially to build up women's straggled, cure women's ailments—an invigorating, restorative tonic, soothing cordial and bracing nerve; purely vegetable, non-alcoholic, and perfectly harmless.

You can prove a trial pig, by sending 10c. to Dr. Pierce, Buffalo, N.Y.

TILLAMONG, ONT.—A few years ago I had a severe nervous breakdown. I would have pained my head and would suffer with backache. I was sitting for about two years. Had doctors but did not seem to get cured of the ailment. At last I took Dr. Pierce's Favorite Prescription and it did me more good than any medicine I ever took. It built me up. I felt better in every way than I had for two years previously.—Mrs. L. HEATH.

What you'll find in Dr. Pierce's Favorite Prescription. It gives you just the help that you need. To be had in liquid or tablet form, 50 cents, at all drug stores.

Mr. D. V. Boyer is building a store 26x56 with 12 ft studdings on his lot in block 2, Main St.

The regular meeting of the Women's Institute will be held at Mrs. George's, on Wednesday June 4th, at 3 p.m.

The 10 cent loaf of bread now made by the Chinook Bakery from a new batch of Royal Household Flour is a winner. Try one to-day.

Rev. G. H. and Mrs. Elliott left on Monday morning for Calgary, Mr. Elliott to attend the Methodist conference and Mrs. Elliott to visit friends. Before returning home they intend to spend a few days at Banff.

Dr. Chandler has received a wire from Dr. Paul, stating that he will be back in Chinook to permanently locate here. This should settle the question, which has caused some speculation as to the Doctor's future action in regard to Chinook.

Selections from Shakespeare, Kipling, Riley, Drummond, and other authors and writers will be impersonated by J. Frank Fouché on Monday night, June 2nd, in Arm's hall. Wit and humor, drama and comedy will be equally well rendered. Mr. Fouché comes to us very highly recommended by the most severe critics of the province. Entertainment will be given under the auspices of the ladies' aid.

Walter M. Crockett, Barrister and Lawyer, at Chinook, has again returned to Chinook and has taken over his late law practice, which for the last 10 months has been conducted by Mr. Ormond as manager, and who now has no connection with the office. Mr. Crockett is now in Chinook and again practicing Law at the old office. All accounts for work done up to May 12th are to be paid to Walter M. Crockett, who has all the files and documents in the old office.

With startling suddenness the 10-months-old daughter of Mr. and Mrs. Thos. Sandman passed away in convulsions, on Sunday evening. Some thirty minutes previous to her death, the child apparently was perfectly well, and was struck down without any warning, dying within half-an-hour. A funeral service was held in the Chinook church, conducted by Mr. F. H. Kinch, the pastor being away at conference, "interment taking place in Chinook cemetery. The parents have the greatest sympathy of their many friends in their sudden bereavement.

The hot, dry winds of the past week began to get on the farmers' nerves, as the moisture was being rapidly taken out of the ground. While not suffering it was felt that the crops, which have had a remarkably rapid growth, could not stand up much longer under such unequal conditions. But just in the nick of time refreshing showers of rain visited this district on Wednesday afternoon and night, which has put the "op" in optimism once more in the farmers, and in us all, who rise or fall down with the farmer.

CARD OF THANKS

Mr. and Mrs. Thos. Sandman wish to thank their many friends for kind help and sympathy during their bereavement.

Miss A. O'Connor, a former teacher at the Chinook school, was the guest of Mr. and Mrs. I. W. Deman over Victoria Day.

CHINOOK CONSOL. S.D.

Keep the Fly!

Where he belongs

Flies

are now considered to be the greatest source of spreading disease known to-day. They seek their breeding places in the most filthy places and multiply by the millions, carrying their fifth and disease into your home and food. If you respect your health and home you will endeavor

to keep the Fly where he belongs on the outside. This is possible only by screening him out.

Screen Wire

We have a full line of the best black wire cloth, in widths from 20 inch to 36 inches, at reasonable prices.

Screen Doors

We can show you a nice line ranging from \$2.50 to \$4.75, of the best mortised and varnished Screen Doors

Swat the Fly

Some flies are bound to get in. Get after them with the Swatter. See our line of swatters. All the kinds that's made

Tanglefoot

2 for 5c- Spring Hinges, Catches Latches, etc.

You Health Demands You Get the Fly!
